Across graphs (T = 10,000, K = 20)
extra regret over the server
average farness F = Σ_k dist(i, k)
Horizon (ring): flat is predicted
N·T
Number of arms (ring)
arms per round K
flood relay (run in E23)
published-only relay, γ = 0.5 (proved)
published-only relay, γ = 1/(2N) (proved)
synchronised epochs (proved)
